5.0 OUR PROFESSIONAL SERVICES

1. PCIDSS Compliance Management

Afenoid specializes in guiding organizations through the complexities of **Payment Card Industry Data Security Standard (PCIDSS)** compliance. Our team of certified Qualified Security Assessors (QSAs) offers comprehensive services, from initial assessments and gap analysis to remediation guidance and certification. We help clients secure payment card data by aligning their systems and processes with industry standards, ensuring ongoing compliance, and mitigating security risks associated with cardholder data. Our approach includes regular vulnerability assessments, penetration testing, and continuous compliance monitoring, ensuring that businesses remain compliant and protected against evolving cyber threats.

2. ISO Standards Certification Readiness

We offer expert advisory and support services to organizations seeking certification under various ISO standards, including **ISO 27001** (Information Security Management), **ISO 22301** (Business Continuity Management), and **ISO 20000** (IT Service Management). Afenoid provides end-to-end guidance, including conducting readiness assessments, developing documentation, implementing required controls, and preparing for certification audits. Our tailored approach ensures that businesses not only achieve certification but also integrate best practices into their operations, enhancing risk management, governance, and operational efficiency.

3. Digital Transformation Advisory

Afenoid helps organizations navigate the digital landscape, enabling them to harness technology to drive innovation, efficiency, and growth. Our Digital Transformation Advisory services focus on modernizing business processes, implementing advanced IT solutions, and optimizing the use of data to enhance decision-making. We assist clients in adopting emerging technologies such as **cloud computing**, **artificial intelligence (AI)**, and **blockchain**, while ensuring alignment with industry-specific requirements and regulatory frameworks. Our goal is to enable organizations to adapt to the digital economy, improve customer experiences, and maintain competitive advantage.

4. SWIFT Cybersecurity Solutions

Afenoid offers tailored **SWIFT CSP** (Customer Security Programme) compliance services to financial institutions, helping them meet the stringent cybersecurity requirements set by SWIFT. Our services include security assessments, risk management, and control implementation to secure financial messaging environments. We ensure that all required controls are in place to protect the confidentiality, integrity, and availability of SWIFT-related infrastructure, reducing the risk of fraud and cyberattacks. As SWIFT CSP specialists, we also provide ongoing monitoring and audit preparation services to ensure continuous compliance and alignment with evolving security standards.

We protect what matters most—your **people**,
your **processes** and the **technology** that
drives them.

6.0 PROFILE OF THE PRACTICE LEADER

Opeyemi founded Afenoid® in 2011 and Centre for Cyber Resilience and Digital Economy (CRADE) in 2016 in order to position organizations and professionals to capitalize on the opportunities of the digital age.
